

# APC Masterclasses

Monthly APC training that is affordable and great value.

**A programme of monthly evening masterclasses that focus on either an aspect of the APC process, or on a technical core or technical optional competency for a specific pathway.**

**Each masterclass is run by an APC assessor and covers:**

**The talk:** A forty-five minute talk on either one technical competency, or an aspect of the APC process.

**The practice:** A number of fifteen minute presentations or mock interviews with a further ten minute critique after each one.

**The presentation practice** is designed to give delegates an idea of how it might be to present to the final assessment panel and helps delegates to polish their presentation and performance. Delegates present their APC final assessment presentation to the APC assessor running the masterclass in front of all the other delegates. The opportunity to present is given regularly, so delegates can come back and present again at another masterclass.

**The mock interviews** are designed to give both the interviewed candidate and the other delegates a real taste of the style of questioning they can expect at the APC. Delegates are given a mock interview by the APC assessor running the masterclass in front of all the other delegates. The questions are tailored to the experience of the interviewee as would be the case in a real APC final assessment. **No stock questions are ever used.** These regular mock interviews are both extremely realistic and affordable.

**Questions:** A half hour open question and answer session where delegates can ask any APC questions they have and share their experiences with other delegates.

These masterclasses are very different from anything else on offer as they give you the opportunity to regularly practise your APC presentation or have a short mock APC interview with an APC assessor.

**What you DO get from each masterclass:**

- **Competency awareness to level 1** (competency masterclasses only)
- **Guidance** on what you need to know about your pathway from an APC assessor with extensive knowledge of the pathway (competency masterclasses) or the APC process (APC process masterclasses)
- Two and a half hours relevant **Professional Development / CPD**
- A **support network** to help guide you through your APC
- An opportunity to meet and network with a group of local APC candidates and **develop your contacts**

**What you DON'T get:**

- **Any food or drink**

We are trying to keep the price as low as possible so we have removed any non-essential costs without reducing the quality of the masterclass.

Please feel free to bring your own food and drink, but no hot or messy food or alcohol please.
