

APC Referral Booklet

Help for referred APC candidates, containing guidance on how to approach referral and how to prepare properly for re-assessment.

This booklet has been developed for those who are unable to attend a referral masterclass. At a masterclass candidates can meet Jon Lever and discuss their referral reports in detail.

Jon speaks to so many candidates, supervisors and counsellors who seem to have insufficient knowledge of the APC process and even less about how to approach referral and how to prepare properly for re-assessment. Jon has written this guide to referral to provide helpful information for what may otherwise seem a daunting and insurmountable task.

"I found the booklet a very useful read as it gives you all the information you need to recommence the final assessment process. I very much like the way it helps you gain your confidence back by getting you over the initial disappointment and refers to the outcome as a learning process rather than failure. For me, receiving the referral report was the hardest part to get over and to reignite the motivation to move forward onto the next stage."
