Testimonials

"My sincerest thanks for your help, without which becoming MRICS would have been a far harder task. Your support and advice has been invaluable." SL MRICS, Shefford

"Jon Lever has an excellent insight into the requirements for the passing the APC Senior Professional Route. His ability to convey to the candidate exactly what is required of them is straightforward and excellent. The one to one coaching is highly productive and informative. The mock interview process is exactly like the real thing from the moment you enter the hotel. Having gone through the interview process with DeLever I was well prepared for what the APC panel required of me. For anyone on the Senior Professional Route I would highly recommend De Lever for the one to one coaching and interviewing that helped me pass at my first attempt."

Five-step executive coaching programme

The Royal Institution of Chartered Surveyors (RICS) offer a range of entry routes to the RICS Assessment of Professional Competence (APC) and our Executive Coaching programme focuses on three of those routes, Graduate Routes 2, 3 and Senior Professional which are specifically designed for those who have already gained certain levels of experience and accreditation within the industry.

From our extensive combined experience as advisors and assessors for the APC we see that many senior professionals do not approach the final assessment in the right way. Our executive coaching delivers a comprehensive programme that helps senior professionals to be well prepared and have the correct mindset to approach the APC final assessment.

Our Executive Coaching programme is specifically tailored for senior industry professionals who wish to achieve full membership of the RICS

Before embarking upon any Executive Coaching, DeLever will ask you to fill in a personal profile. DeLever will then review your situation and offer a free one to one phone consultation with Jon Lever FRICS FInstCPD to establish what your requirements will be.

The coaching steps are flexible. You can choose to meet more regularly with your coach or step into the coaching further down the stages as your requirements dictate. Each coaching session lasts 2 hours, but can be longer by prior agreement with your coach.
