

DeLever APC/ATC Seminars – Feedback

Seminar: APC Critical Analysis Explained – 21st January 2008, Manchester

14 delegates attended this seminar held at the Marriott Hotel, Manchester Airport. The APC Critical Analysis Explained seminar included a walk through the whole Critical Analysis process and an interactive exercise on developing a 'right first time' Critical Analysis project. The seminar considered the APC requirements, selecting an appropriate project, report structure and pitfalls, understanding key issues and options, critical appraisal and reflective analysis, report writing skills and guidelines and various resources available to candidates, supervisors and counsellors. The seminar closed with a final question and answer session and each delegate took away with them a pack full of useful information and a free resource CDROM.

Below are the scores received from the delegate feedback:

What did delegates like the most about this seminar?

- “Example of what the report should look like”
- “The level of detail included”
- “Informative with some activities that helped to clarify the project to select”
- “Friendly atmosphere and the ability to ask questions at any time”
- “Style of presentation”
- “Informal approach but very clear and concise presentation”
- “Guidance and tips”
- “Relaxed, lots of support resources”
